Foreword

It is customary after a certain period of time during which a journal has been in circulation that its publisher issues a bibliography of the works and papers which have appeared in that journal in order that its readers may gain as comprehensive an insight as possible into the work of the journal to date. Since *Veterinarski arhiv* (Veterinary Archive) has been in publication for more than sixty uninterrupted years, despite two wars of aggression against Croatia (1941-45 and 1990-92), and due to the fact that no such bibliography has ever been published, I have undertaken the task of rectifying this omission.

Veterinarski arhiv is a scientific journal published by the Faculty of Veterinary Medicine, University of Zagreb, under the following international designation: ISSN 0372-5480, and UDC 61:636/639:59:57, and the official abbreviation: Vet. arhiv. The dimensions of the journal are 23 x 17 cm. The journal first appeared in 1931 as a result of the combined efforts of prominent faculty professors and ten years after the faculty itself was founded. From the outset the journal has adopted the highest scientific criteria and has published only top quality, original scientific papers, the result of which was that the journal soon found its way into most of the veterinary libraries in Europe, and even beyond its shores. *Veterinarski arhiv* has made every effort to maintain the highest scientific standards since its inception, which is why the papers it has presented are regularly quoted in many of the most highly regarded reference journals and data bases, as well as in numerous scientific papers and books around the world. Due to a number of reasons, however, *Veterinarski arhiv* has so far found it impossible to find its way into the list of the most influential (and the finest) scientific journals of the world, covered by the prestigious Current Contents, published by the Institute for Scientific Information, based in Philadelphia, U.S.A..

Although publication of this distinctly scientific journal began, as we stated earlier, in 1931, our very first professional and scientific journal of veterinary medicine appeared in 1906. Unfortunately, this journal, published by the Croatian Veterinary Society, was beset by great difficulties during the existence of the Yugoslav State, being published only intermittently. Publication of this particular journal was initiated prior to the founding of a Faculty of Veterinary Medicine in Zagreb, by Croatian veterinary surgeons who had completed their studies at various faculties in countries comprising the Austro-Hungarian Empire. It was also thanks to their tireless efforts that the Faculty of Veterinary Medicine was founded in Zagreb and, eventually, for the emergence of *Veterinarski arhiv*. It is worthy of mention that, almost concurrently with the publication of the first issue of *Veterinarski arhiv*, a group of students at the Faculty of Veterinary Medicine, University of Zagreb, initiated and established *Veterinar* (The Veterinarian), a professional journal compiled by students of veterinary medicine studying at the University of Zagreb and which was among the first of its kind in the world.

Several veterinary or other, affiliated, bibliographies have been published (qq.v. Bibliography on page 361) comprising some works from the field of veterinary medicine, including those published in *Veterinarski arhiv*. One of the most comprehensive bibliographies to date is that compiled in 1971 by Professor Režek and which covered works produced by staff of the Faculty of Veterinary Medicine in Zagreb. Professor Režek states in his bibliography: »The lack of any review of the discussions and articles published in the scientific journal of our faculty *Veterinarski arhiv* from 1931 up until today has been sorely felt«. He also points to the fact that his bibliography does not include numerous reviews of books, etc., and in reference to that he goes on to say: »A bibliography of such material must be left to another hand and another time«. One of the reasons for this bibliography being published are those very words, put on record by Professor Režek.

This bibliography contains all the original data as they appear in the journal (authors:, TITLE., year/volume, first and last page., Titles of summaries) of all articles (a total of more than 3500 articles) published in *Veterinarski arhiv* from the time of its inception up until 1990, its sixtieth annual file without correcting rare misprints. Additionally, each individual paper, with the exception of chapter 19 (book reviews)-if not written in Croatian or English, or which has no summary in those languages, has its title translated into

Croatian and English. Titles thus translated and which do not appear in *Veterinarski arhiv* are placed between asterisks (*).

Titles of papers have been divided into nineteen narrowly defined scientific fields and then placed in chronological order within each of those fields. Each bibliographical unit is preceded by a number denoting the section (scientific field) as well by its ordinal number within the section. The book concludes with an Authors Index comprising the names of every author, listed alphabetically by surname, who has contributed to *Veterinarski arhiv*. Although we have made every effort to put names to the initials of every author, we have not been completely successful and there is, therefore, a number of names which are marked only by surname and the initial letter of the first name. Every article published in the journal has been classified within a certain section, although it was sometimes difficult to decide on its placing since, according to the given criteria, it could have been placed within another field, or even several fields. Finally, we decided to adhere to the principle of one paper being designated by only a single field, which resulted in titles of individual works appearing just once. This apparent shortcoming may be compensated for by browsing through the Authors' Index, from which it is possible to discover which section contains works by individual authors. Listed alongside family and first names (sometimes only the initials of first names) are figures denoting the section number and ordinal number within the section of each individual work of the author in question. A bold-printed number indicates that the person is the sole author of the article; where a number is printed in italics it indicates a person who is the primary author, while a number in normal print indicates that the person referred to has cooperated in the writing of the given article. Since there have been a number of articles for which their authors are unknown, such articles have been listed under anonymous.

During the course of the first sixty years of publication of *Veterinarski arhiv*, articles published therein were most often written in Croatian, less often in English and German, and, much less frequently, in Serbian, Slovene, French, and Russian. Summaries most frequently appear in Croatian, English, German, French, and Russian, and rare in Serbian and Slovene. These days, however, *Veterinarski arhiv* is published only in English and with Croatian-language summaries.

This book is the result of many years of dedicated effort, its publication being initially planned for the early 1990s. However, the onset of the Croatian War of Independence halted all activities related to its appearance; the military aggression launched against Croatia by Serbia and Montenegro and the Yugoslav National Army serving to focus attention on more vital activities. Hence the short delay in the publication but which means that it is appearing in time to coincide with the 900th anniversary of the founding of the Diocese of Zagreb, with the 325th anniversary of the founding of the University of Zagreb, and with the 75th anniversary of the founding of the Faculty of Veterinary Medicine at the University of Zagreb. It is to celebrate the latter anniversary, however, that I am now able and pleased to present this book to our reading public.

In conclusion, I would like to take this opportunity to express my sincere gratitude to all those who have assisted in so many ways to make possible the publication of this book, thereby introducing to the professional public, not only of Croatia but also of the wider world, the works of those countless scientists who, for the past sixty years, have labored tirelessly in discovering scientific truths in the field of veterinary medicine.

These words of introduction and some items of information about this book having been delivered, we assign it to the reading public for their assessment, trusting that it will serve well, both now and in future years, all those engaged in scientific work in the field of veterinary medicine. It is my fervent hope that it will also serve as an appropriate testimony to all those who have gone before us in this field, as well as highlighting a segment, however small, of the cultural heritage of Croatia.

Zagreb, November 1994

Prof. Dr. *Hrvoje Gomercic*

Predgovor (Croatian translation of Foreword)

Uobičajeno je da pojedini časopisi nakon određenog vremena svog izlaženja izrade bibliografiju svojih radova, kako bi na jednom mjestu, i to pregledno, omogućili svojim čitateljima uvid u dotadašnji rad samog časopisa. Kako »Veterinarski arhiv« neprekidno izlazi već preko 60 godina (bez prekida je izlazio i tijekom dva osvajačka rata na području Hrvatske - 1941-1945 i 1990-1992), a dosada nije bila objavljena nikakva njegova bibliografija, prihvatio sam se zadatka da nadoknadim taj nedostatak.

»Veterinarski arhiv« znanstveni je časopis Veterinarskog fakulteta Sveučilišta u Zagrebu, koji ima međunarodnu oznaku ISSN 0372-5480, te UDC 61:636/639:59:57 i službenu kraticu »Vet. arhiv«, a formata je 23 X 17 cm. Počeo je izlaziti marom tadašnjih uglednih profesora tog fakulteta godine 1931., deset godina nakon osnutka fakulteta. Odmah, od samog početka, časopis je imao visoke znanstvene kriterije, tako da je od samog početka objavljivao samo izvorne visokokvalitetne znanstvene radove, tako da se vrlo brzo pojavio u većini veterinarskih knjižnica u Europi, pa i u ostalom svijetu. Tu visoku znanstvenu razinu nastojao je zadržati čitavo vrijeme svojeg izlaženja, pa su stoga radovi objavljeni u »Veterinarskom arhivu« citirani u mnogim najuglednijim svjetskim referalnim časopisima i bazama podataka, a vrlo često se citiraju i u mnogim znanstvenim radovima i knjigama širom svijeta. Nažalost zbog raznih razloga, do sada nije uspio ući na popis najutjecajnijih (najboljih) svjetskih znanstvenih časopisa koje obrađuje prestižni Current Contents što ga izdaje Institute for Scientific Information iz Philadelphia, USA.

Iako je ovaj izrazito znanstveni časopis počeo izlaziti davne 1931. godine, u Hrvatskoj je prvi veterinarski stručno-znanstveni časopis počeo izlaziti još godine 1906. Taj časopis čiji je izdavač Hrvatsko veterinarsko društvo, nažalost je izlazio s velikim prekidima u vrijeme postojanja države Jugoslavije. Njega su počeli izdavati hrvatski veterinari prije osnutka fakulteta u Hrvatskoj, tj. naši veterinari koji su studirali uglavnom na pojedinim veterinarskim fakultetima u Austro-Ugarskoj monarhiji. Svojim nastojanjima oni su uspjeli da se u Zagrebu godine 1919. osnuje Veterinarski fakultet, pa tako i znanstveni časopis »Veterinarski arhiv«. Za spomenuti je da je gotovo istovremeno s osnutkom »Veterinarskog arhiva«, skupina tadašnjih studenata Veterinarskog fakulteta Sveučilišta u Zagrebu pokrenula i »Veterinar«, studentski stručni list studenata veterinarske medicine Zagrebačkog fakulteta, kao jedan od prvih takvih studentskih listova u svijetu.

Prije ove bibliografije bilo je objavljeno nekoliko veterinarskih, ili nekih drugih srodnih bibliografija (vidi: Bibliography na 361. stranici) koje su uključivale i pojedine veterinarske radove, pa i pojedine radove iz »Veterinarskog arhiva«. Jedna od najkompletnijih takvih bibliografija je ona prof. Adolfa Režeka (1971), koja je obradila radove namještenika Veterinarskog fakulteta u Zagrebu. Režek u svojoj Bibliografiji navodi: »Dobrano se pak osjetilo pomanjkanje pregleda rasprava i članaka objavljenih u našem fakultetskom znanstvenom listu »Veterinarski arhiv« (od god. 1931. do danas).« Prije toga navodi da u njegovu Bibliografiju nisu uneseni veoma brojni prikazi, među ostalim i knjiga, te piše: »Bibliografski prikaz takve građe morao se prepustiti drugom peru i drugom vremenu.« Jedan od povoda za sastavljanje ove bibliografije upravo su i citirane riječi prof. Režeka.

Ova bibliografija sadrži sve originalne podatke kako se pojavljuju u časopisu (autore:, NASLOV., godina/godište, prvu i posljednju stranicu., Naslov sažetaka), svih članaka (ukupno preko 3500 članaka) koji su tiskani u »Veterinarskom arhivu« od njegova osnutka pa zaključno do 60. godišta, godine 1990., i to bez ispravljanja uočenih rijetkih tiskarskih pogrešaka. Uz to kod svakog pojedinog rada, osim u poglavlju 19 (Book reviews), ako nije pisan na hrvatskom ili engleskom jeziku ili nema sažetka na tim jezicima, naslovi su prevedeni na hrvatski i engleski jezik. U tom slučaju ovako prevedeni naslovi, koji se ne pojavljuju u »Veterinarskom arhivu«, stavljeni su između zvjezdica (**O**).

Naslovi su radova podijeljeni u 19 užih znanstvenih područja, a unutar svake skupine poredani su kronološki. Ispred svake bibliografske jedinice nalazi se broj koji označuje poglavlje (znanstveno područje) te redni broj unutar poglavlja. Na kraju ove knjige nalazi se Authors' Index u kojem su navedeni svi autori koji su

pisali u »Veterinarskom arhivu«, a poredani su prema abecedi prezimena. Nastojalo se razriješiti inicijale imena svih autora, ali nažalost u tome se nije uspjelo do kraja, tako da su mnogi autori ipak označeni samo prezimenom i inicijalom imena. Svaki od tiskanih članaka razvrstan je u jedno poglavlje (znanstveno područje) iako je ponekad bilo teško odlučiti kamo ga svrstati, jer bi po zadanim kriterijima mogao pripadati nekom drugom području ili u više njih. Ipak, zadržano je načelo da svaki rad dolazi samo u jedno područje, tako da se pojedini radovi ne ponavljaju, a ovaj nedostatak lagano se može nadoknaditi pogledom u Authors' Index, gdje se brzo može naći u kojem se poglavlju nalaze pojedini radovi određenih autora. Authors' Index, uz prezime i ime (katkad samo inicijal imena) sadrži brojeve koji označavaju broj poglavlja i redni broj unutar poglavlja svakog pojedinog rada dotičnog autora. Ako je broj pisan **podebljano**, znači da je osoba jedini autor tog članka, *koso* označuje da je osoba prvi autor članka i obično pisan broj znači da je dotična osoba suradnik u članku. U časopisu je objavljeno nekoliko članaka bez oznake autora, pa su ti članci u ovoj knjizi svrstani pod pojam *anonymus*.

Tijekom prvih 60 godina »Veterinarskog ahiva« u njemu su članci tiskani najčešće na hrvatskom jeziku, zatim na engleskom i njemačkom, a znatno rjeđe na srpskom, slovenskom, francuskom i ruskom. Istovremeno, sažeci su tiskani na hrvatskom, engleskom, njemačkom, francuskom i ruskom jeziku, te rijetko na srpskom i slovenskom jeziku. Sada »Veterinarski arhiv« izlazi samo na engleskom jeziku sa sažetkom na hrvatskom jeziku.

Na ovoj se knjizi radilo više godina, a bilo je planirano da se objavi početkom devedesetih godina. Međutim, rad na njoj potpuno je prekinut u tijeku rata 1990-1992, jer je zbog agresije Srbije i Jugoslavenske narodne armije na Hrvatsku bilo prećih poslova u interesu obrane domovine. Tako ova knjiga izlazi sada, s malim zakašnjenjem ali se poklapa s 900. obljetnicom osnutka Zagrebačke nadbiskupije, 325. obljetnicom osnutka Zagrebačkog sveučilišta i 75. obljetnicom osnutka Veterinarskog fakulteta Sveučilišta u Zagrebu u čiju je čast predajem čitateljstvu na upotrebu.

Pri kraju ovih nekoliko riječi, zahvaljujem svima koji su na bilo koji način pomogli da ova knjiga ugleda svjetlo dana, da upozna hrvatsku i svjetsku stručnu javnost s radom brojnih znanstvenika koji su u proteklih nešto više od 60 godina marljivo radili otkrivajući znanstvene istine u području veterinarstva.

S ovih nekoliko uvodnih riječi i obavijesti o ovom djelu, prepušta se ova knjiga na pravednu prosudbu javnosti s nadom da će u sadašnjosti i u budućnosti dobro poslužiti svima onima koji se bave znanstvenim radom u području ukupnog veterinarstva. Osim toga, nadam se da će poslužiti za ugodno prisjećanje na sve one koji su u ovom području djelovali prije nas, te da će upozoriti i na ovaj neveliki prilog kulturnoj baštini Hrvata.

U Zagrebu, mjeseca studenoga 1994.

Prof. dr. Hrvoje Gomerčić

BIBLIOGRAPHY OF VETERINARSKI ARHIV 1 - 60 (1931 - 1990)

BIBLIOGRAFIJA VETERINARSKOG ARHIVA 1. - 60. (1931. - 1990.)

(The titles between asteriks . *-----* are Croatian and/or English translation which do not appear in original articles in Veterinarski arhiv)

1. Morphology

- 1/1. Fran Veble: PRILOZI PITANJU VRETENASTIH ČELIJA KOD DOMAĆE PERADI. 1931/1, 23-82.
Prilog poznavanju trombocita u domaće peradi.
A contribution to the problem of the thrombocytes in domestic poultry.
Contribution au probleme des thrombocytes chez volailles domestiques.
- 1/2. Butozan L. Vasa i Celinščak Ivo: AMEBOIDNE FORME KRVNIH LEUKOCITA KOD GOVEDA. PRILOG POZNAVANJU KVALITATIVNIH I KVANTITATIVNIH ODNOSA JEZGARA KOD LEUKOCITA. 1931/1, 135-157.
Amebic forms of blood leucocytes in cattle. A contribution to the study of the qualitative and quantitative relationship between nuclei in leucocytes.
- 1/3. Rojko Makso: O KRVNI SLIKI DOMAĆE SVINJE. 1931/1, 251-302.
O krvnoj slici u domaće svinje.
On the blood picture of the domestic pig.
Au sujet du hemogramme des porcs domestique.
- 1/4. Jedlička Vilko: PRILOZI K UPOZNAVANJU KRVNE SLIKE GOVEDA S POSEBNIM OBZIROM NA RAZVOJ KRVNE SLIKE TELADI U PRVIM TJEDNIMA PO PORODU. 1931/1, 418-493.
A contribution to the study of the blood picture of cattle with special regard to the development of the blood picture of calves in the first weeks after birth.
Beiträge zur Kenntniss des Rinderblutbildes mit besonderer Berücksichtigung des Blutbildes der Kälber in ersten Wochen nach der Geburt.
- 1/5. Fr. Moser: ŠTETJE, TROMBOCITOV PO METODI FLÖSSNER PRI ČLOVEKU IN KONJU. 1932/2, 38-62.
Brojenje krvnih pločica Flössnerovom metodom u čovjeka i konja.
The counting of thrombocytes after Flössner in human beings and in horses.
šber Blutplattchenzählung nach der Flössnerschen Methode bei Mensch und Pferd.
- 1/6. Malenšek Slavko: PRINOSI K VPRAŠANJU SLIKE EMBRIONALNE KOKOŠJE KRVI IN NJENE GENEZE. 1932/2, 92-136.
Prilozi poznavanju krvne slike i njene geneze u kokošnjeg zametka.
A contribution to the study of the picture of the embryonal chicken blood and its genesis.
Beiträge zum Bild des embryonalen Hühnerblutes und seiner Genese.
- 1/7. Josip Devide: PRILOZI UPOZNAVANJU LEUKOCITARNE KRVNE SLIKE GOVEDA S NAROČITIM OBZIROM NA LEUKOCITOZU PRILIKOM PROBAVE. 1932/2, 260-310.
A contribution to the knowledge of the white blood formula with a special regard to digestive leucocytosis.
Beiträge zu den Kenntnissen des leukozytären Blutbildes des Rindes mit besonderer Berücksichtigung der Verdauungsleukozytose.
- 1/8. Milan S. Jocković: PRILOZI PITANJU NORMALNE KRVNE SLIKE TELADI U STAROSTI OD 6-16 NEDELJA S OSOBITIM OBZIROM NA TROMBOCITE. 1932/2, 458-475.
Contribution to the question of the blood picture of calves of an age from 6-16 weeks, with particular regard to trombocytes.
- 1/9. Butozan L. Vasa: PRILOZI PITANJU NORMALNE LEUKOCITARNE KRVNE SLIKE KOD TELADI U STAROSTI OD 6 DO 10 NEDJELJA. 1933/3, 108-143.
A contribution to the problem of the normal leucocyte blood picture of calves at the age from 6 to 10 weeks.
Beiträge zum normalen leukozytären Blutbild der Kälber im Alter von 6-10 Wochen.
- 1/10. Šerbec Jože: KRVNA SLIKA PRI TELETIH V STAROSTI 3-5 TEDNOV. 1933/3, 383-426.
Krvna slika teleta starosti 3-5 tjedana.
The blood picture of calves 3-5 weeks old.
Das Blutbild 3-5 Wochen alter Kälber.
- 1/11. Oklješa Božidar: O VELIČINI I TEŽINI KRAVLJIH OVARIJA. 1934/4, 264-280.
On the size and weight of cow ovaries.
Au sujet des dimensions et du poids des ovaires de vache.

- 1/12. Zemljič Ivan: O NORMALNI KRVNI SLIKI GOVEDA. 1935/5, 10-29.
The normal blood-picture of horned cattle.
O normalnoj krvnoj slici goveda.
- 1/13. Fran I. Zavrnik i Fedor Mikič: ŠBER DAS NORMALE BLUTBILD UNSERER HAUSTIERE - EIN VORSCHLAG ZUR EINHEITLICHEN UNTERSUCHUNG. 1935/5, 324-339.
On the normal blood formula of our domestic animals - a suggestion for the standard examination.
O normalnoj krvnoj slici naših domaćih životinja - prijedlog za jedinstveno istraživanje.
- 1/14. F. I. Zavrnik i Fedor Mikič: O BROJU ERITROCITA DOMAĆE SVINJE. BIOMETRIČKO-HEMATOLOŠKA ANALIZA ROJKOVE RADNJE. 1936/6, 69-93.
On the number of erythrocytes in the domestic pig.
šber die Erythrocytenzahl des Hausschweines.
- 1/15. Hadžimitković Todor: KRVNA SLIKA KOD PATAKA PEKINGŠKE PASMINE. 1936/6, 113-136.
The blood picture of duck of the Peking breed.
šber das Blutbild bei Peking-Enten.
- 1/16. Ercegovac Dragutin: PRILOZI PITANJU NORMALNE KVANTITATIVNE I KVALITATIVNE KRVNE SLIKE KOD OVACA. 1936/6, 244-264.
A contribution to the problem of the normal quantitative and qualitative blood picture in sheep.
Ein Beitrag zur Frage des normalen quantitativen und qualitativen Blutbildes beim Schaf.
- 1/17. T. Varićak: RAZVOJ MLINA KOKOŠI. 1936/6, 174-409.
The development of the gizzard in hens.
šber die Entwicklung des Muskelmagen des Haushuhnes.
- 1/18. F. I. Zavrnik i F. Mikič: O BROJU LEUKOCITA KOD DOMAĆE SVINJE. BIOMETRIČKO-HEMATOLOŠKA ANALIZA ROJKOVE RADNJE. 1937/7, 71-116.
The number of leucocytes in the domestic pig.
šber die Leukozytenzahl des Hausschweines.
- 1/19. T. Ciliga.: BRAZDE I VIJUGE MOZGA U KOPITARA. 1937/7, 509-568.
Brain sulci and gyri in ungulates.
Contribution a l'etude des sillons et des circonvolutions cerebrales des Ongules.
- 1/20. S. Rapić: POSTOJI LI PROPUSTLJIVOST MEDIASTINA ZA PLINOVE, TEKUĆINE I BAKTERIJE KOD DOMAĆIH ŽIVOTINJA?. 1937/7, 581-595.
Is the mediastinum of domestic animals permeable to gases, liquids and bacteria?.
šber die Frage der Durchlässigkeit des Mediastinum der Haussäugetiere für Gase, Flüssigkeiten und Bakterien.
- 1/21. T. Ciliga: PRINOS POZNAVANJU OSTRVA NA GOVEDSKOM MOZGU. 1939/9, 14-23.
A contribution to the knowledge of the insula in the brain of cattle.
Contribution l'Štude de l'insule sur un cerveau de boeuf.
- 1/22. V. Šporen: KVANTITATIVNA I KVALITATIVNA KRVNA SLIKA KLINIČKI ZDRAVOGA PSA S OSOBITIM OBZIROM NA TROMBOCITE. 1940/10, 30-52.
The quantitative and qualitative blood picture of the clinically healthy dog with special regard to the trombocytes.
Quantitatives und qualitatives Blutbild des klinisch gesunden Hundes mit besonderer Berücksichtigung der Trombocyten.
- 1/23. T. Ciliga: O TOPOGRAFSKO-ANATOMSKIM I FUNKCIONALNIM ODNOSIMA ŽDRIJELA KOD KONJA. 1940/10, 416-455.
On the topographic-anatomic and functional relations of pharynx in the horse.
Contribution l'Štude du pharynx chez le cheval.
- 1/24. T. Varićak: BOJADISANJE GRANULA MASTOCITA HEMALAUNOM. 1940/10, 538-540.
Staining of the mastocyte granules with hemalum.
Zur Färbung der Mastzellengranula mit Haemalaun.
- 1/25. T. Varićak: O GRAĐI TRAHEJALNIH PRSTENOVA KOKOŠI. 1940/10, 627-633.
On the structure of the tracheal rings in the chickens.
šber den Bau der Trachealringe des Haushuhnes.
- 1/26. T. Varićak: O NEKIM OPAŽANJIMA NA EPIDERMI DOMAĆIH ŽIVOTINJA. 1941/11, 189-200.
On some observations on the epidermis of domestic animals.
Einige Beobachtungen in der Epidermis der Haustiere.
- 1/27. T. Varićak: PRILOG POZNAVANJU LOKALIZACIJE ŽELJEZA U PLODNIM OVOJNICAMA GOVEDA I SVINJE. 1941/11, 279-287.
A contribution to the study of the localization of iron in the fetal membranes in the cattle and pigs.
Beitrag zur Kenntnis der Lokalisation des Eisens in den Eihäuten bei Rind und Schwein.

- 1/28. M. Hrestak: RAZVITAK KOŠTANE SRŽI U METATARZUSU GOVEDA. 1941/11, 329-342.
The development of bone marrow in the metatarsus of cattle.
šber die Entwicklung des Knochenmarkes im Metatarsus des Rindes.
- 1/29. F. Zavrnik i F. Mikič: O BROJU TROMBOCITA KOD DOMAĆE SVINJE. BIOMETRIČKO-HEMATOLOŠKA ANALIZA ROJKOVE RADNJE III. 1941/11, 477-509.
On the number of thrombocytes in the domestic pig. The biometric-hematologic analysis of Rojko's work III.
šber die Trombozytenzahl des Haus-schweines (Biometrisch-hämatologische Analyse einer Arbeit von Rojko. III.).
- 1/30. Ć. Bibić: PRILOZI RAZVOJU KOŠTANE SRŽI U OSSA TARSII GOVEDA. 1941/11, 510-525.
A contribution to the study of the development of the bone marrow in ossa tarsi in the cattle.
Beiträge zur Entwicklung des Knochenmarkes in den Ossa tarsi des Rindes.
- 1/31. T. Ciliga: PRILOG POZNAVANJU MIŠIĆA MEKOG NEPCA. 1942/12, 229-243.
A contribution to the knowledge of soft palate muscles.
Zur Anatomie der Gaumensegelmuskeln des Pferdes.
- 1/32. S. Kist: O RAZVIJENOSTI I RASPODJELI ŽLIJEZDA U KOŽI ZAMORČETA (CAVIA PORCELLUS) 1942/12, 387-396.
*On the degree of the development and distribution of glands in the skin of guinea-pig (Cavia porcellus).*šber die Entwicklungsstärke und Verteilung der Hautdrüsen des Meerschweinchens (Cavia porcellus).
- 1/33. T. Varićak: PRILOG POZNAVANJU POVRŠINE MEĐUKOTILEDARNIH PODRUČJA HORIONA GOVEDA. 1942/12, 407-416.
A contribution to the study of the surface of the intercotyledon areas of chorion in the cattle.
Ein Beitrag zur Kenntnis der Oberfläche der zwischenkotyledonären Choriongebiete beim Rinde.
- 1/34. T. Varićak: PRILOG POZNAVANJU RESORPCIJE I LOKALIZACIJE ŽELJEZA U HORIONU GOVEDA I SVINJE. 1942/12, 482-491.
A contribution to the study of the resorption and the localization of iron in the chorion of cattle and pigs.
Ein Beitrag zur Kenntnis der Eisen-Resorption und Lokalisation im Chorion des Rindes und Schweines.
- 1/35. T. Varićak: IZPITIVANJA ODNOSA ŽLIJEZDA U KOŽI NEKIH DOMAĆIH ŽIVOTINJA PREMA PLAZMAL-REAKCIJI. 1943/13, 1-8.
The investigation in the relationship of the gland in the skin of some domestic animals to the plasmic reaction.
Untersuchungen über das Verhalten der Hautdrüsen einiger Haustiere zur Plasmalreaktion.
- 1/36. D. Stuparić: ACETALFOSFATIDI U NUZBUBREZIMA PERADI. 1943/13, 164-169.
Acetalphosphatides in the adrenal glands of poultry.
Die Acetalphosphatiden der Nebennieren beim Geflügel.
- 1/37. M. Bevandić: PODRUČJE PREDNJE HEMOROIDALNE VENE U REKTUMU KOD SVINJE. 1943/13, 186-198.
The area of the cranial hemorrhoidal vein in the rectum in the pig.
Abführungsgebiet der Vena haemorrhoidalis cranialis im Rektum beim Schwein.
- 1/38. T. Brzac: PLAZMALI U HIPOFIZI DOMAĆIH SISAVACA. 1943/13, 339-346.
Plasmas in the hypophysis of domestic mammals.
Die Plasmas der Hypophyse bei Haussäugetieren.
- 1/39. T. Varićak: OSVRT NA METODE RADA KOD IZVAĐANJA PLAZMALNE REAKCIJE I NJEZINO ZNAČENJE. 1943/13, 347-357.
A review of the working methods during the performance of the plasmic reaction and its importance.
Eine Betrachtung über die Methodik und Bedeutung der Plasmalreaktion.
- 1/40. A. Frank: HISTOKEMIJSKI NALAZ ŽELJEZA KOD KUNIĆA. 1943/13, 403-414.
Histochemical findings of iron in rabbits.
Der histochemische Nachweis von Eisen bei dem Kaninchen.
- 1/41. T. Varićak: VIŠESLOJNI IZOPRIZMATIČNI EPITEL. 1943/13, 415-417.
Stratified cuboidal epithelium.
Geschichtetes isoprismatisches Epithel.
- 1/42. Z. Essert: PRILOG POZNAVANJU KVANTITATIVNE I KVALITATIVNE KRVNE SLIKE HLADNOKRVNJAKA. 1944/14, 182-203.
A contribution to the study of the quantitative and qualitative blood picture of the cold blooded horses.
Beitrag zur Kenntnis des quantitativen und qualitativen Blutbildes bei Kaltblutpferden.
- 1/43. M. Jošić: PRILOG POZNAVANJU KVANTITATIVNE I KVALITATIVNE KRVNE SLIKE TOPLOKRVNJAKA. 1944/14, 220-236.
A contribution to the study of the quantitative and qualitative blood picture of the warmblood horses.
Beitrag zur Kenntnis des quantitativen und qualitativen Blutbildes der Warmblutpferde.

- 1/44. T. Varićak: SLUČAJ MIELOPOEZE U JEZIKU KUNIĆA. 1944/14, 252-255
 A case of myelopoiesis in the tongue of a rabbit.
 Ein Fall von Myelopoese in der Zunge des Kaninchens.
- 1/45. V. Diebalo: PLAZMALNA REAKCIJA U NEKIM ORGANIMA KOKOŠI. 1945/15, 41-46.
 The plasmic reaction in some organs in the hen.
 Die Plasmalreaktion in einigen Organen des Huhnes.
- 1/46. J. Vučković: ELASTIČNA VLAKNA U PLUĆIMA FETUSA GOVEDA. 1945/15, 226-227.
 The elastic fibres in the lungs of the fetus of cattle.
 Elastische Fasern in Lungen der Rinderfeten.
- 1/47. T. Varićak: O NAROČITIM TVOREVINAMA NA PARAPLACENTARNOM PODRUČJU PLODNOG MJEHURA PSA. 1946/16, 1-7.
 On the special features on the paraplacental area of the chorion in the dog.
 šber eigenartige Gebilde am Paraplacentargebiet der Fruchtblase beim Hunde (Vorläufige Mitteilung).
- 1/48. T. Varićak: MOGUĆNOST ISKORIŠTAVANJA INZULARNOG APARATA TUNE (ORCYNUS (THUNNUS) THYNNUS L) U NAŠOJ FARMACEUTSKOJ INDUSTRIJI. 1946/16, 90-101.
 The possibility of the utilization of the tunny-fish (Orcynus (Thunnus) thynnus L.) insular apparatus in our pharmaceutical industry.
 Possibilitè de l'exploitation de l'appareil insulaire du thon (Orcynus (Thunnus) thynnus L.) dans notre industrie pharmaceutique.
- 1/49. O. Kester: HIPOTEZA O UZROKU DESCENSUS TESTICULORUM KOD SISAVACA. 1947/17, 153-154.
 The hypothesis on the cause of testicle descent in mammals.
 Hypothese über die Ursache des Descensus testiculorum bei den Säugetieren.
- 1/50. T. Varićak: SMOLA BORA KAO NADOMJESTAK ZA KANADSKI BALZAM U HISTOLOŠKOJ TEHNICI. 1947/17, 195-198.
 The resin of pines as a substitute for the Canadian balsam in the histologic technique.
 Kiefernharz statt Kanadabalsam in der histologisch-mikroskopischen Technik.
- 1/51. T. Varićak: INTRAHEPATALNE PRIGUŠNE VENE U JAZAVCA. 1948/18, 243-246.
 The intrahepatic throttled veins in the badger.
 *rus*é-ââ`»ç-ç-è¥ á|`-îè`¥ »à`á»á@j«¥-`ĩ ä j àââª .
 Intrahepatale Drosselrichtungen an den Lebervenen des Dachses.
- 1/52. Katarina Kranjc: FAZNI KONTRAST, NOVA METODA U MIKROSKOPIJI. 1949/19, 149-162.
 The phase contrast - a new method in microscopy.
 Sur la mŠthode de microscopie de Zernike.
 *rus*ö §@çë© ª@-ââ áâ - -@çë© -¥â@ª ç -`ªà@áª»`´´ .
- 1/53. T. Varićak: O OKOŠTAVANJU TUBEROSITAS TIBIAE KOKOŠI. 1950/20, 49-61.
 On the ossification of the tuberositas tibiae in the hens.
 šber die Verknöcherung der Tuberositas tibiae des Haushuhnes.
- 1/54. M. Kralj: LEUKOCITARNA FORMULA ŽDREBADI STARE 6-12 MJESECI. 1950/20, 211-218.
 The leucocytic formula in foals aged 6 to 12 months.
 La formule leucocytaire des poulains ages de 6 a 12 mois.
- 1/55. B. Maržan i Š. Štrkanec: UTJECAJ NAČINA HRANJENA NA HISTOLOŠKU SLIKU SLIJEPOG CRIJEVA GUSKE. 1950/20, 219-225.
 The influence of the way of feeding on the histological picture of the caecum in the goose.
 Tableau histologique comparatif de l'intestin aveugle chez l'oise engraissŠe et chez l'oise non engraissŠe.
- 1/56. V. Bačić: NEKA ZAPAŽANJA U ADENOHIPOFIZI GOVEDA. 1950/20, 348-356.
 Some observations in the adenohipophysis of a cattle.
- 1/57. T. Varićak: IMADE LI GANGLIJSKIH STANICA U STIJENCI UTERUSA DOMAĆIH SISAVACA. 1950/20, 370-375.
 Are there any ganglionic cells in the uterus wall of the domestic mammals?
- Gibt es Ganglienzellen im Uterus der Haussäugetiere?
- 1/58. T. Ciliga: PRILOG MORFOLOGIJI NEOPALIJUMA GOVEDA. 1951/21, 185-219.
 A contribution to the morphology of neopallium in cattle.
 Contribution la morphologie nŠopallŠale du boeuf.
- 1/59. M. Ključec: PRILOG RENTGENSKOJ ANATOMIJI MIŠIĆJA U PSA. 1953/23, 188-190.
 A contribution to the X-ray anatomy of muscles in the dog.
 Beitrag zur röntgenologischen Anatomie der Muskeln beim Hund.

- 1/60. V. Bačić i Z. Križan: O PODJELI I NOMENKLATURI HIPOFIZE SISAVACA. 1954/24, 38-44.
Division and terminology of the hypophysis in mammals.
šber Einteilung und Nomenklatur der Säugetierhypophyse.
- 1/61. A. Frank: MODIFIKACIJA U POSTUPKU HLAĐENJA KOD PRIPREMANJA PARAFINSKIH BLOKOVA. 1954/24, 152-154.
Modification of the cooling procedure in the preparation of paraffin blocks.
Modifikation im Abkühlungsverfahren bei der Paraffinblocksherstellung.
- 1/62. T. Varićak: OSVRT NA PROBLEM LIMFNIH ČVOROVA KOD PTICA. 1954/24, 222-225.
Reviewing the problem of lymph-nodes in birds.
Bemerkungen zum Problem der Lymphknoten bei den Vögeln.
- 1/63. T. Švob: UTJECAJ ULTRALJUBIČASTIH ZRAKA NA LIČINKE ŽABE PELOBATES FUSCUS (LAURENTI). 1956/26, 54-62.
Effect of the ultraviolet rays upon the larvae of the frog *Pelobates fuscus* (Laurenti).
L'action des rayons ultravioletes sur les larves de la grenouille *Pelobates fuscus* (Laurenti).
- 1/64. V. Bačić: O PORTALNIM ŽILAMA HIPOFIZE GOVEDA. 1956/26, 254-266.
On portal vessels of bovine hypophysis.
šber die Pfortadergefäße der Hypophyse des Rindes.
- 1/65. V. Bačić: ODNOS HIPOFIZE I MENINGA KOD GOVEDA. 1957/27, 81-87.
Relations between hypophysis and meninges in cattle.
Das Verhältnis von Hypophyse und Hirnhäuten beim Rinde.
- 1/66. T. Ciliga: MORFOLOGIJA PRVIH DVIJU ARKUALNIH BRAZDA CENTRALNOG PODRUČJA NEOPALIJUMA SVINJE. 1958/28, 49-57.
Morphology of the first two arcuate sulci of the central region of neopallium in swine.
Développement de deux premiers sillons arqués du territoire central du neopallium chez le porc.
Entwicklung der beiden ersten Bogenfurchen der Mittelgegend des Schweineneopalliums.
- 1/67. T. Ciliga: RAZVOJNI OBLICI INZULARNOG PODRUČJA SVINJE. 1958/28, 76-85.
The developmental forms of insular region of pigs.
Développement du complexe Sylvien chez le porc.
Die Entwicklungsformen der Inselwindung des Schweines.
- 1/68. Ž. Dolinar: OSOBITOSTI REDUKCIJE LISNJAČE (E. CABALLUS). 1960/30, 272-276.
Characteristic of the reduction of the fibula (*E. caballus*).
Eigenheiten der Reduktion des Wadenbeines (*E. caballus*).
- 1/69. M. Kralj i Ž. Dolinar: O PRIKLADNOSTI OGRANAKA VELIKE UŠNE VENE GOVEDA ZA INTRAVENOZNU APLIKACIJU. 1961/31, 109-114.
On the suitability of the great auricular vein of the ox for intravenous application.
Sur les propriétés de la grande veine auriculaire du bovin pour l'injection intraveineuse.
- 1/70. I. Valpotić, V. Mitin i Milica Bogdanović: CRVENA I BIJELA KRVNA SLIKA BALKANSKE KOZE. 1961/31, 254-258.
Hematological properties of the Balkan goat.
Das Blutbild der Balkan-Ziege.
- 1/71. V. Mitin: RAZVOJ CRVENE KRVNE SLIKE U FETUSA KONJA. 1962/32, 227-231.
The development of the red blood picture in foetus of horse.
Développement de la formule sanguine rouge chez le foetus du cheval.
- 1/72. S. Krvavica: ENZYMATIC INVESTIGATIONS IN THE MUCOSA OF THE RUMEN. I. THE PRESENCE AND LOCALIZATION OF CHOLINESTERASE AND ALKALINE PHOSPHATASE. 1964/34, 11-16.
Encimatska istraživanja sluznice predželudaca. I. Nazočnost i lokalizacija kolinesteraze i alkalne fosfataze.
Recherches sur l'activité fermentative de la muqueuse du rumen. I. La présence et la localisation de la cholinestérase et de la phosphatase alcaline.
- 1/73. U. Bego i S. Rapić: TOPOGRAFSKI ODNOSI VRATNOG DIJELA DUŠNIKA I JEDNJAKA U PERADI. 1964/34, 243-253.
The topographic relations of the trachea and oesophagus in the area of the neck in poultry.
Topographische Verhältnisse des Halsteiles der Luft- und Speiseröhre beim Geflügel.
- 1/74. Z. Stilinović, J. Rac i Z. Robić: LINERANE DIMENZIJE RUMENA I RETIKULUMA GOVEDA MJERENE »IN VIVO«. 1965/35, 204-212.
The linear dimensions of the rumen and reticulum of cattle measured »in vivo«.
Lineare Dimensionen von Pansen und Haube bei Rindern, gemessen »in vivo«.

- 1/75. T. Ciliga, S. Rapić, U. Bego i I. Huber: PRILOG ANATOMIJI MEDIJASTINA U DOMAĆIH EKVIDA. 1966/36, 17-24.
A contribution to the anatomy of the mediastinum in domestic equines.
Contribution ... la connaissance de l'anatomie du médiastin des équidés domestiques.
- 1/76. S. Rapić, U. Bego, T. Ciliga i I. Huber: PRILOG ANATOMIJI MEDIJASTINA U DOMAĆIH I NEKIH DIVLJIH KANIDA. 1966/36, 25-30.
A contribution to the anatomy of the mediastinum in domestic and some wild canides.
Contribution ... la connaissance de l'anatomie du médiastin des canidés domestiques et certains canidés sauvages.
- 1/77. Z. Radman: HISTOLOŠKE I NEKE HISTOKEMIJSKE VARIJACIJE ENDOMETRIJA U GOVEČETA U TOKU SPOLNOG CIKLUSA. 1967/37, 250-255.
The histologic and some histochemical variations of the bovine endometrium in the course of the sexual cycle.
Variations histologiques et certaines variations histochimiques de l'endometrium chez le bovin au cours du cycle sexuel.
- 1/78. Nada Kralj and A. Lui: HISTOCHEMICAL STUDIES OF CHOLINESTERASE ACTIVITY IN PARAMPHISTOMUM CERVI AND DIPLODISCUS SUBCLAVATUS. 1967/37, 257-261.
Histokemijska promatranja kolinesteraze u Paramphistomum cervi i Diplodiscus subclavatus.
Les observations histochimiques de la cholinesterase chez Paramphistomum cervi et Diplodiscus subclavatus.
- 1/79. Danica Žnidarić and A. Lui: A COMPARATIVE ANALYSIS OF THE LOCALIZATION OF CHOLINESTERASE IN SOME PARASITIC NEMATODES. I. STRONGYLUS EDENTATUS, S. VULGARIS, METASTRONGYLUS ELONGATUS AND CHOEROSTRONGYLUS PUDENDOTECTUS. 1967/37, 262-267.
Komparativna analiza lokalizacije aktivne kolinesteraze u nekih parazitskih nematoda. I. Strongylus edentatus, S. vulgaris, Metastrongylus elongatus i Choeroststrongylus pudendotectus.
L'analyse comparative de la localisation de la cholinesterase active chez certains nematodes parasites. I. Strongylus edentatus, S. vulgaris, Metastrongylus elongatus et Choeroststrongylus pudendotectus.
- 1/80. Danica Žnidarić: A COMPARATIVE ANALYSIS OF THE LOCALIZATION OF CHOLINESTERASE ACTIVITY IN SOME PARASITIC NEMATODES. II. ASCARIS SUUM, PARASCARIS EQUORUM, NEOASCARIS VITULORUM AND OXYURIS EQUI. 1967/37, 268-276.
Komparativna analiza lokalizacije aktivne kolinesteraze u nekih parazitskih nematoda. II. Ascaris suum, Parascaris equorum, Neoascaris vitulorum i Oxyuris equi.

Variability of proteins in the serum of cows and its correlation with the activity of selected ferments during lactation.
- 2/112. S. Krvavica, Marija Prosenjak, Đurđa Kućan and Helena Pavić: ACTIVITIES OF AMMONIA-BINDING ENZYMES IN THE STRATIFIED-SQUAMOUS EPITHELIUM OF THE RUMINANT FORESTOMACH. 1971/41, 169-174.
Aktivnost encima koji vežu amonijak u višeslojnom pločastom epitelu predželudaca preživača.

- 2/113. S. Krvavica, Đurđa Kućan, Marija Prosenjak, and Helena Pavić: COMPARATIVE INVESTIGATIONS OF THE ACTIVITIES OF AMMONIA-BINDING ENZYMES IN THE LIVERS OF RUMINANTS AND OF MONOGASTRIC ANIMALS. 1971/41, 175-178.
Komparativna istraživanja aktivnosti enzima koji vežu amonijak u jetri preživača i u jetri monogastričnih životinja.
- 2/114. S. Krvavica, Helena Pavić, Đurđa Kućan and J. Gorišek: THE INFLUENCE OF UREA RICH DIET UPON THE ACTIVITY OF AMMONIA-BINDING ENZYMES IN THE SHEEP LIVER. 1971/41, 179-182.
Utjecaj hrane s mnogo ureje na aktivnost enzima koji vežu amonijak u jetri ovaca.
- 2/115. S. Krvavica, Đurđa Kućan and Helena Pavić: ACTIVITY OF AMMONIA-BINDING ENZYMES IN THE PAROTID GLAND OF CATTLE. 1971/41, 183-186.
Aktivnost enzima koji vežu amonijak u parotidnoj žlijezdi u goveda.
- 2/116. B. Kurelec: THE INABILITY OF FACIOLA HEPATICA AND MONIESIA BENEDENI TO DETOXICATE BENZOIC ACID IN VITRO. 1971/41, 196-201.
Nesposobnost metilja Fasciola hepatica i trakavice Moniezia benedeni da in vitro detoksiciraju benzojevu kiselinu.
- 2/117. T. Martinčić, S. Krvavica i Elvira Fulgosi: UTJECAJ PREHRANE NA PROMET MASNIH KISELINA U PREŽIVAČA. I. MASNO-KISELINSKI SASTAV LIPIDA SERUMA, JETRE I MASNIH SPREMIŠTA U TELADI. 1971/41, 283-287.
The effect of diet on fatty acids composition in ruminants. I. Fatty acids composition of serum lipids, liver and adipose tissue in calves.
- 2/118. T. Martinčić, S. Krvavica i Elvira Fulgosi: UTJECAJ PREHRANE NA PROMET MASNIH KISELINA U PREŽIVAČA. II. MASNO-KISELINSKI SASTAV LIPIDA SERUMA, JETRE, MASNIH SPREMIŠTA TE SADRŽAJA BURAGA U JUNADI. 1971/41, 288-292.
The effect of diet on fatty acids composition in ruminants. II. Fatty acids composition of serum lipids, liver, adipose tissue and rumen contents in cattle.
- 2/119. M. Kalivoda, M. Kekez, F. Dumanovsky, D. Haberštok i M. Škorić: ISTRAŽIVANJA O UTJECAJU RAZLIČITE HRANIDBE NA RAZVOJ NEKIH FIZIOLOŠKIH PROCESA U TELADI. II. PROMJENE U RAZINI ŠEĆERA U KRVI TE U AKTIVNOSTI SERUMSKE α -AMILAZE, GLUTAMAT-OKSALACETAT TRANSAMINAZE (SGOT) I GLUTAMAT-PIRUVAT TRANSAMINAZE (SGPT) U TELADI U TIJEKU TOVA MLIJEČNIM ZAMJENAMA. 1972/42, 24-30.
Investigations of the influence of various sorts of feeding upon the development of some physiological processes in calves. II. Changes in the level of sugar in blood and in the activity of serum α -amylase, glutamic-oxalacetic transaminase (SGOT) and glutamic-pyruvic transaminase (SGPT) in calves during fattening with milk substitutes.
- 2/120. M. Findrik i M. Kalivoda: ISTRAŽIVANJA O UTJECAJU RAZLIČITE HRANIDBE NA RAZVOJ NEKIH FIZIOLOŠKIH PROCESA U TELADI. III. UČINAK NA RAZINU NATRIJA I KALIJA U KRVNOM SERUMU TELADI ZA RASPLOD I TELADI U TOVU. 1972/42, 44-48.
Investigations of the influence of various sorts of feeding upon the development of some physiological processes in calves. III. The effect upon the level of sodium and potassium in serum of calves for reproduction and fattening calves.
- 2/121. M. Kalivoda, F. Sanković i M. Findrik: ISTRAŽIVANJA O UTJECAJU RAZLIČITE HRANIDBE NA RAZVOJ NEKIH FIZIOLOŠKIH PROCESA U TELADI. IV. STANJE OPSKRBE ŽELJEZOM I RAZVOJ CRVENE KRVNE SLIKE U TELADI ZA UZGOJ, U TELADI TOVLJENE MLIJEČNIM ZAMJENAMA TE U TELADI TOVLJENE KREPKIM KRMIVIMA. 1972/42, 62-70.
Investigations of the influence of various sorts of feeding upon the development of some physiological processes in calves. IV. The effect of iron supply and the development of red blood cells in breeding calves, in calves fattened by milk's substitutes and in calves fattened by concentrates.
- 2/122. T. Martinčić i S. Krvavica: UTJECAJ PREHRANE NA PROMET MASNIH KISELINA U PREŽIVAČA. III. MASNO-KISELINSKI SASTAV LIPIDA SERUMA, SLUZNICE I SADRŽAJA RUMENA ODRASLIH GOVEDA. 1972/42, 77-80.
The effect of diet on fatty acids composition in ruminants. III. Fatty acids composition of serum lipids, rumen mucosa and rumen contents in adult animals.
- 2/123. I. Ehrlich and Terezija Bajželj-Hrženjak: LIPIDS IN THE URINE OF MAN AND SOME DOMESTIC MAMMALS. 1972/42, 132-135.
Lipidi u urinu čovjeka i nekih domaćih sisavaca.
- 2/124. D. Timet, V. Mitin, Melita Herak i D. Emanović: USPOREDNA ISTRAŽIVANJA RESORPCIJE JEDNOVALJANIH I DVOVALJANIH KATIONA U POJEDINIM ODJELJCIMA SLOŽENOG ŽELUCA GOVEDA. 1973/43, 7-20.
Comparative investigations on the absorption of monovalent and bivalent ions from different compartments of the bovine stomach.
- 2/125. M. Kalivoda, F. Sanković, S. Lerman, M. Findrik, S. Bebić i N. Milin: ISTRAŽIVANJA O UTJECAJU RAZLIČITE HRANIDBE NA RAZVOJ NEKIH FIZIOLOŠKIH PROCESA U TELADI. V. BIOKEMIJSKE PROMJENE U UVODNOM RAZDOBLJU TOVA TELADI KREPKIM KRMIVIMA S POSEBNIM OSVRTOM NA REAKCIJE KORE NADBUBREŽNE ŽLIJEZDE. 1973/43, 221-235.

Investigations of the influence of various mode of feeding upon the development of some physiological processes in calves. V. Biochemical changes in the initial period of fattening calves with complete feeds, with special reference to reactions of the adrenal cortex.

- 2/126. S. Šir: EFEKTORSKO DJELOVANJE NEKIH ORGANSKIH ŽIVINIH SPOJEVA NA GLICEROFOSFATAZU KRVNOG SERUMA, UJEDNO PRILOG POZNAVANJU AKTIVNIH ČVORIŠTA U FOSFATAZAMA. 1973/43, 236-250.
Effector influence of certain organomercury compounds on the glycerophosphatase of blood serum - also a contribution to the knowledge of active centres in phosphatases.
- 2/127. T. Martinčić, S. Krvavica i Elvira Fulgosi: UTJECAJ ANIMALNIH MASTI I BILJNIH ULJA NA METABOLIZAM ODNOSNO KONVERZIJU MASNIH KISELINA U TELADI I JUNADI. 1973/43, 304-317.
The effect of animal fat and vegetable oil on the metabolism and convergion of fatty acids in calves and cattle.
- 2/128. D. Timet, Melita Herak, D. Emanović i P. Kraljević: RESORPCIJA KALCIJEVIH IONA U SLOŽENOM ŽELUCU GOVEDA IZ OTOPIKA KALCIJEVIH SOLI RAZLIČITE KONCENTRACIJE. 1974/44, 46-51.
Absorption of the ions of calcium in the ruminant stomach from solutions of calcium salts being of different concentrations.
- 2/129. S. Krvavica, Helena Pavić and Đurđa Kučan: EFFECT OF PROTEIN-LOW AND PROTEIN-HIGH DIETS ON THE ACTIVITY OF UREA-CYCLE ENZYMES, GLUTAMATE DEHYDROGENASE, GLUTAMATE-OXALOACETATE- AND GLUTAMATE-PYRUVATE TRANSAMINASE IN THE PIG LIVER. 1974/44, 121-125.
Utjecaj hrane s malo bjelančevina i s mnogo bjelančevina na aktivnost enzima urea-ciklusa, glutamat dehidrogenaze, glutamat-oksalat- i glutamat-piruvat transaminaze u jetri svinje.
- 2/130. S. Krvavica and Helena Pavić: ACTIVITY OF ARGININOSUCCINATE SYNTHETASE, ARGININOSUCCINASE AND ARGINASE IN THE PAROTID GLAND OF CATTLE. 1974/44, 126-131.
Aktivnost argininosukcinat sintetaze, argininosukcinaze i arginaze u parotidnoj žlijezdi goveda.
- 2/131. F. Zdelar, V. Mitin, S. Rižnar i Margareta Tranger: FUNKCIJA ŠTITNJAČE U ODNOSU NA SADRŽINU BAKRA I ŽELJEZA U KRVNOM SERUMU GRAVIDNIH I NEGRAVIDNIH KRAVA. 1974/44, 212-227.
Function of the thyroid in relation to the copper and iron content in the blood serum of pregnant and nonpregnant cows.
- 2/132. D. Timet, V. Mitin, Melita Herak i D. Emanović: UTJECAJ TROVANJA KALIJEVIM CIJANIDOM NA RESORPCIJU JEDNOVALJANIH I DVOVALJANIH KATIONA U POJEDINIM ODJELJCIMA SLOŽENOG ŽELUCA GOVEDA. 1974/44, 261-274.
Influence of poisoning with KCN on the absorption of monovalent and bivalent ions from different compartments of the bovine stomach.
- 2/133. K. Mikulec i Z. Vinovrški: PROMET NATRIJA I KALIJA U KRVNOM SERUMU I U MLIJEKU CRNO-ŠARIH KRAVA U TIJEKU LAKTACIJE. 1975/45, 1-11.
Sodium and potassium contents in blood serum and milk of black-white cows during lactation.
- 2/134. M. Herak, Melita Herak i Z. Sojak: PROMJENE KOLIČINE UKUPNIH BJELANČEVINA U KRVNOM SERUMU KRMAČE U TOKU GRAVIDITETA, LAKTACIJE I NAKON ODBIJANJA PRASADI. 1975/45, 49-56.
Changes of total proteins level in the blood serum of sows during pregnancy, lactation and after weaning of piglets.
- 2/135. M. Herak, Melita Herak, V. Kovačević, B. Šimundić-Bendić i G. Ristić: PROMJENE AKTIVNOSTI TRANSAMINAZA, TE ALKALNE I KISELE FOSFATAZE U KRVNOM SERUMU KRMAČA ZA VRIJEME LAKTACIJE I POSLIJE ODBIJANJA PRASADI. 1975/45, 71-82.
Changes of transaminases and phosphatases activity in the blood serum of sows during lactation and after weaning of piglets.
- 2/136. D. Timet, V. Mitin, M. Herak, Melita Herak i D. Emanović: O RESORPCIJI IONA NATRIJA I KALIJA U BURAGU KOZE. 1975/45, 123-128.
Absorption of sodium and potassium ions from the rumen of the goat.
- 2/137. I. Ehrlich i Terezija Hrženjak: POLARNI LIPIDI U NEMATODA ASCARIS LUMBRICOIDES. 1975/45, 129-132.
Polar lipids in Ascaris lumbricoides.
- 2/138. K. Mikulec, A. Rako, Z. Vinovrški i I. Karadjole: PROMET KALCIJA I ANORGANSKOG FOSFORA U KRVNOM SERUMU I U MLIJEKU CRNO-ŠARIH KRAVA U TIJEKU LAKTACIJE. 1975/45, 133-146.
Level of calcium and inorganic phosphorus in blood serum and in milk of Friesian cows during lactation.
- 2/139. D. Emanović: UTJECAJ TROVANJA SLUZNICE KALIJEVIM CIJANIDOM NA RESORPCIJU FOSFATA U SLOŽENOM ŽELUCU GOVEDA. 1975/45, 197-205.
The influence of KCN on phosphorus absorption from different compartments of the ruminant stomach.
- 2/140. K. Mikulec, Z. Vinovrški, V. Mitin, Blaženka Vojvoda-Matotek i M. Štefičić: RAZINE INZULINA U KRVNOM SERUMU INTENZIVNO TOVLJENE JUNADI. 1975/45, 215-223.
Insuline levels in the blood serum of intensively fattened cattle.

- 2/141. Vlasta Šerman: PROMJENE RAZINE HEMOGLOBINA U KRVI, ŽELJEZA I BAKRA U KRVNOJ PLAZMI TE ŽELJEZA U SUHOJ TVARI JETRE I GRUDNOG MIŠIĆA PURIĆA TIJEKOM TOVA. 1975/45, 321-328.
Changes in the hemoglobin level of the whole blood, in the iron and copper levels of the plasma as well as the changes in the iron contents of the liver and the breast muscle matter of fattening turkeys.
- 2/142. Z. Vinovrški, K. Mikulec i S. Šir: PROMET NATRIJA I KALIJA U KOLOSTRUMU I U MLIJEKU CRNOŠARIH KRAVA U PRVIH DESET DANA LAKTACIJE. 1976/46, 81-87.
Level of sodium and potassium in colostrum and in milk of Friesian cows during the first ten days lactation.
- 2/143. D. Timet, Melita Herak, D. Emanović i P. Kraljević: ISTRAŽIVANJA RESORPCIJE KALCIJA U PROBAVILU PREŽIVAČA. I. O UTJECAJU KISELOSTI SADRŽAJA NA RESORPCIJU KALCIJA U SIRIŠTU. 1976/46, 115-121.
Investigations on calcium absorption from the digestive tract of ruminants. I. About the influence of actual acidity of contents on calcium absorption from the abomasum.
- 2/144. V. Mitin and F. A. Kallfelz: PARTIAL PURIFICATION OF THYROID HORMONE BINDING PROTEINS FROM DOG SERUM BY AFFINITY CHROMATOGRAPHY AND DEAE SEPHADEX CHROMATOGRAPHY. 1976/46, 123-135.
Pročišćavanje proteina koji vežu hormone štitne žlijezde iz seruma psa afinitetnom kromatografijom i kromatografijom u stupcu DEAE Sephadex.
- 2/145. D. Emanović: PRILOG ISTRAŽIVANJU RESORPCIJE FOSFATA U POJEDINIM ODJELJCIMA SLOŽENOG ŽELUCA GOVEDA. 1976/46, 137-145.
A contribution to the investigation of phosphate absorption from different compartments of the bovine stomach.
- 2/146. S. Krvavica, Đurđica Francetić, Alenka Tofant i Dragica Živković: KOMPARATIVNA ISTRAŽIVANJA AKTIVNOSTI ENZIMA KOJI SUDJELUJU U RAZGRADNJI GLUKOZE U PARAMPHISTOMUM MICROBOTHRIUM (TREMATODA) I NEOASCARIS VITULORUM (NEMATODA). 1976/46, 215-229.
Comparative investigations on activity of enzymes taking part in glucose decomposition in Paramphistomum microbothrium (Trematoda) and Neoascaris vitulorum (Nematoda).
- 2/147. S. Krvavica, Đurđica Francetić i Dragica Živković: AKTIVNOST, DISTRIBUCIJA I SPECIFIČNOST "MALIC" ENZIMA U NEKIH NEMATODA, CESTODA I TREMATODA. 1976/46, 231-239.
Activity, distributions and cofactor dependence of "malic" enzymes in some nematodes, cestodes and trematodes.
- 2/148. S. Krvavica, Đurđica Francetić, Alenka Tofant, B. Živković i Dragica Živković: AKTIVNOST ENZIMA KOJI SUDJELUJU U FERMENTACIJI GLUKOZE U METASTRONGYLUS APRI (NEMATODA). 1976/46, 271-287.
The activity of enzymes in *Metastrongylus apri* (nematode) taking part in glucose fermentation.
- 2/149. K. Kos, Nadia M. Hassan, H. Mazija i Vera Tadić: PRILOG POZNAVANJU MINERALNOG SASTAVA U PLODNIH TEKUĆINA PILEĆIH ZAMETAKA. 1977/47, 47-56.
Mineral composition of embryonic fluids in chick embryos.
- 2/150. S. Krvavica, Đurđica Francetić i Alenka Tofant: NAZOČNOST »CITRATE CLEAVAGE« ENZIMA I TZV. »CITRATE CLEAVAGE« PUTA U METASTRONGYLUS APRI (NEMATODA). 1977/47, 87-94.
Presence of a »citrate cleavage« enzyme and »citrate cleavage« pathway in *Metastrongylus apri* (Nematoda).
- 2/151. D. Timet, Melita Herak, D. Emanović i P. Kraljević: ISTRAŽIVANJA RESORPCIJE KALCIJA U PROBAVILU PREŽIVAČA. II. O DJELOVANJU pH NA RESORPCIJU KALCIJA U RAZLIČITIM ODJELJCIMA SLOŽENOG ŽELUCA GOVEDA POD IZOTONIČNIM I IZOJONIČNIM UVJETIMA. 1977/47, 171-178
Investigations of calcium absorption from the digestive tract of ruminants. II. The influence of pH on calcium absorption from different compartments of the bovine stomach under isotonic and isoionic conditions.
- 2/152. T. Martinčić i Elvira Fulgosi: UTJECAJ UGLJIKOHIDRATNE DIJETE NA LIPOGENEZU U GUSAKA. I. MASNO-KISELINSKI SASTAV LIPIDA JETRE. 1977/47, 239-250.
The influence of carbohydrate diet on the lipogenesis in geese. I. The fatty acid composition of liver lipids.
- 2/153. T. Martinčić i Elvira Fulgosi: UTJECAJ UGLJIKOHIDRATNE DIJETE NA LIPOGENEZU U GUSAKA. II. MASNO-KISELINSKI SASTAV LIPIDA MASNIH SPREMIŠTA. 1978/48, 5-11.
The influence of carbohydrate diet on the lipogenesis in geese. II. The fatty acid composition of lipids in the adipose tissue.
- 2/154. D. Timet, Melita Herak, D. Emanović, V. Mitin i P. Kraljević: ISTRAŽIVANJA RESORPCIJE KALCIJA U PROBAVILU PREŽIVAČA. III. O UTJECAJU pH NA RESORPCIJU KALCIJA IZ OTOPINA KALCIJEVA KLORIDA RAZLIČITE KONCENTRACIJE U RAZLIČITIM ODJELJCIMA SLOŽENOG ŽELUCA GOVEDA. 1978/48, 299-311.
Investigations of calcium absorption from the digestive tract of ruminants. III. The influence of pH on calcium absorption from calcium chloride solutions of different concentration in different compartments of the ruminant stomach.
- 2/154a. Olivera Rupnik i Terezija Hrženjak: PROTEINSKE I LIPOPROTEINSKE FRAKCIJE U SERUMU ČOVJEKA I NEKIH DOMAĆIH ŽIVOTINJA. 1978/48 (Suppl.), S3-S4.
Protein and lipoprotein fractions in the serum of man and some domestic animals.

- 2/154b. D. Emanović, D. Timet and P. Kraljević: ALDOLASE ACTIVITY CHANGES IN CHICKEN BLOOD PLASMA DURING HYPOTHERMIA AND POSTHYPOTHERMIA. 1978/48 (Suppl.), S5-S7.
Promjene aktivnosti aldolaze u krvnoj plazmi kokošiju za vrijeme hipotermije i posthipotermije.
- 2/154c. Bojana Gradinski-Vrbanac, Melita Herak, D. Timet, D. Emanović and P. Kraljević: CHANGES OF ATP CONTENTS IN CHICKEN BLOOD DURING HYPOTHERMIA AND POSTHYPOTHERMIA. 1978/48 (Suppl.), S9-S10.
Promjene u sadržaju ATP u krvi kokošiju tijekom hipotermije i posthipotermije.
- 2/154d. Melita Herak, D. Timet, D. Emanović, Bojana Gradinski-Vrbanac and P. Kraljević: INFLUENCE OF HYPOTHERMIA ON SOME CARBOHYDRATE METABOLISM PARAMETERS IN HENS. 1978/48 (Suppl.), S19-S20.
Utjecaj hipotermije na neke pokazatelje metabolizma ugljikohidrata u kokoši.
- 2/154e. D. Timet, D. Emanović, Melita Herak, P. Kraljević and V. Mitin: THE EFFECT OF SODIUM CONCENTRATION IN THE CONTENTS ON GASTRIC ABSORPTION OF CALCIUM IN CATTLE. 1978/48 (Suppl.), S37-S38.
Utjecaj koncentracije natrija u sadržaju na intenzitet resorpcije kalcija iz složenog želuca goveda.
- 2/154f. F. Zdelar, V. Mitin, F. Sanković, P. Kraljević, V. Hahn i B. Martinić: ODNOS IZMEĐU SADRŽINE TIROKSINA I GLUKOZE U KRVNOM SERUMU TELADI U TOVU. 1978/48 (Suppl.), S39-S41.
The relation between the level of thyroxin and glucose in the blood serum of fattening calves.
